

**Date: April 5, 2010**

**To: Ranch at Roaring Fork Board of Directors**

**From: Fishing Advisory Committee (Dan Bishop, Chair; George Pucak; Arnie Goldblatt; J.P. Pfautz; Stephanie McConaughy, Secretary)**

**Re: Recommended Action Items**

The Fishing Advisory Committee (FAC) conducted a meeting on March 6, 2010. Stephanie McConaughy and JP Pfaust were present at the gazebo. Dan Bishop participated via conference call. Mike Fordyce, Tom Neel and Richard Sierzant were present as Ranch homeowners. The FAC has the following recommendations for current actions by the Ranch at Roaring Fork Board of Directors (RRF BOD):

1. The FAC recommends that the RRF BOD approve having Dan Bishop act as advisor to the Ranch manager and staff regarding grass and brush cutting along stream banks. The FAC further recommends that Ranch homeowners contact Dan Bishop or the Ranch manager if they have any suggestions for grass and brush cutting.
2. The FAC recommends that the RRF BOD approve having Dan Bishop work with Ranch staff to do experimental cutting of pond weed in the stream beds in three or more areas. Proposed sections are: Ranch Creek section of Sopris Creek, plus one or two more areas of Sopris Creek below twin bridges. Richard Sierzant volunteered to work with Dan Bishop on this project. They will take pre- and post work pictures and monitor stream temperatures.
3. A FAC meeting will be scheduled some time in early to mid June, 2010. The main agenda item will be discussion of recommendations to the BOD regarding a long-term fishing/waterways management plan. Notice and proposed agenda will be posted on the RRF website in advance.
